Call *Alternative Pet Services* to care for your "Best Friend" when you cannot be there for them.

Your Pet is played with, exercised, fed, watered, medicated, and pooper-scooped in the comfort of their own environment. There is no longer a need to send your healthy animal to stay in an uncomfortable kennel. As an additional service we will pick-up the mail, rotate lighting, water plants, and check the premises. We can update you after every visit — your choice: e-mail, phone call, or note.

We are available for visits lasting from 20 minutes to over-night service.

We provide **Veterinary & Grooming Transportation** to get your pets to their appointments for you. We, also, provide pet store visits and park outings for your Best Friend.

The APS Waste Patrol is in your neighborhood. For a nominal fee, your yard can be waste free.

If you have an **Emergency** we have been trained in **Pet First Aid** by **The American Red Cross**. We answer the phone 24 hours a day - 7 days a week, to serve your pet's every need.

We have 12 years of animal training experience—to get you started off right with your new puppy or kitten. Daily visits are the best way to get behavioral results. Animals love a consistent routine.

APS will provide Service after completing a **Free** "get acquainted" meeting with you and your "children." At this meeting, you will have the opportunity to gain additional information about the services **APS** provides. **APS** will present all of the details, have you sign a Service Contract, and attain a copy of your house key. After the initial consultation, future visits can be scheduled with a phone call, or on the internet.

APS is a member of, and Certified by, **The National Association of Professional Pet Sitters**.

APS is insured through **Pet Sitters Associates**, and bonded through **Travelers Casualty**.

APS is a Member of **Pet Sitters International**.

We hope to meet your pet soon!!!
